The C-10<sup>+</sup> possesses many features which set it apart:

- Computer designed web and flange chassis for strength and flexibility in the most hostile of operating environments.
- Vogel central greasing system as standard for the supply of efficient centralised lubrication.
- Powerful Caterpillar C6.6 Acert engine for more effective cost efficient performance.
- Large vibrating feeder with grizzly and discharge conveyor for fines.
- Hydraulic system automatically coordinates the flow of material from the vibrating feeder to the jaw.
- Hydraulic adjustment system to regulate the product size to be crushed.
- Uniquely small closed size setting.
- Operation of the jaw can be instantly reversed to clear any blockage
- Unique fast track system ensures the clear flow of reinforcing bar when concrete is crushed.
- Large gap between discharge point of crusher and discharge conveyor eliminates blockages and facilitates cleaning.
- Complete machine raises on its hydraulic legs to facilitate cleaning, servicing of tracks and to provide a stable base.
- Machine is self propelled by remote control or umbilical control hand set.
- Intelligent electronics.
- Class leading jaw size to provide truly massive production.
- Purpose designed for ease of transport and accessibility to inner city sites.

# Specification

## Options List

- Lined Hopper Doors
- Mild Steel Hopper Liners
- Hardox Hopper Liners
- Hardox Hopper Base Plate
- Jaw Deflector Plate
- Jaw Plate Style TÜV
- Extended Main Conveyor
- Reversible Side Conveyor
- Oil Cooler
- Dual Oil Cooler
- Pre Cleaner Extension tube
- Dust Suppression (canvas)
- Drop Chutes
- Diesel Pump
- Lighting Kit
- Belt Weigher
- Daisy Chain (Intelligent machine)
- Head Drum Guards

# C-10+ jaw crusher

# Features and Benefits

## The Mobile Solution

The new Extec C-10+ is a compact tracked jaw crusher based on the design of the world leading C-10. The C-10+ is a crusher designed and tested using the latest computer aided design technology, with testing being undertaken on a large selection of various types of material world wide.

The C-10+ is a totally new concept in tracked crushing designed to increase production, reduce operating costs and produce a consistent product. Suitable for crushing virtually any material it encounters, the C-10+ has found its niche within the demolition, recycling, construction and aggregates industries.
