C-12⁺

jaw crusher

EXTEC

excellence through technology

C-12⁺ jaw crusher

the mobile solution

At the very heart of the C12⁺ are a set of features that updates the successful C12 design so that it is again at the very forefront of mobile crushing technology.

With over 1,500 units working world-wide, the C12 from Extac truly has become an icon in the world of tracked crushing. Since its launch in 2001 the C12 has become the benchmark others have measured themselves against. Possessing such revolutionary features as a hydraulic jaw operation, vibratory feeder, and reverse crushing action.....but now has had the unthinkable happen to it!

The unimprovable has been improved.

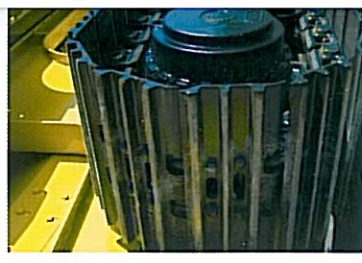

The new designated C-12⁺ is the result of Extac's unrivalled R&D programme, and encompasses features designed to further enhance the profitability of the user at its core.

features and benefits

These include:

- Computer designed web and flange chassis for strength and flexibility in the most hostile of operating environments.
- Vogel central greasing system as standard for the supply of efficient centralised lubrication.
- Powerful Caterpillar C-9 Acert engine for more powerful cost efficient performance.
- Extended tail conveyor as standard for even greater stockpiling capacity.
- Large vibrating feeder with grizzly and discharge conveyor for fines. Hydraulic system automatically coordinates the flow of material from the vibrating feeder to the jaw.
- Hydraulic adjustment system to regulate the product size to be crushed.
- Uniquely small closed size setting.
- Operation of the jaw can be instantly reversed to clear any blockage.
- Unique fast track system ensures the clear flow of reinforcing bar when concrete is crushed.
- Large gap between discharge point of crusher, and discharge conveyor, eliminates blockages and facilitates cleaning.
- Complete machine raises on its hydraulic legs to facilitate cleaning, servicing of tracks, and to provide a stable base.
- Machine is self propelled by remote control or umbilical control hand set.
- Intelligent electronics.

C-12⁺ jaw crusher

Applications include:

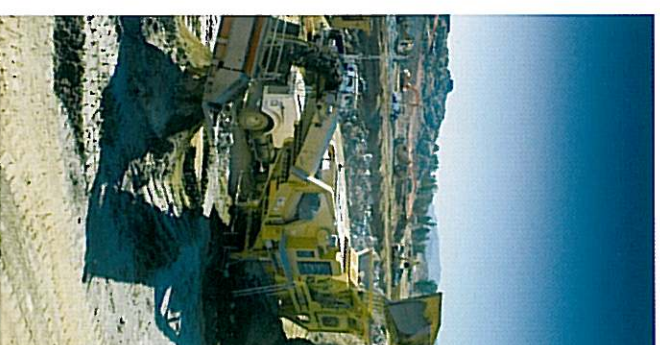

- Hard rock crushing in quarries or construction sites
- Concrete crushing in recycling yards or demolition sites
- Asphalt crushing
- And many, many more

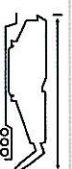

Specification

Options List

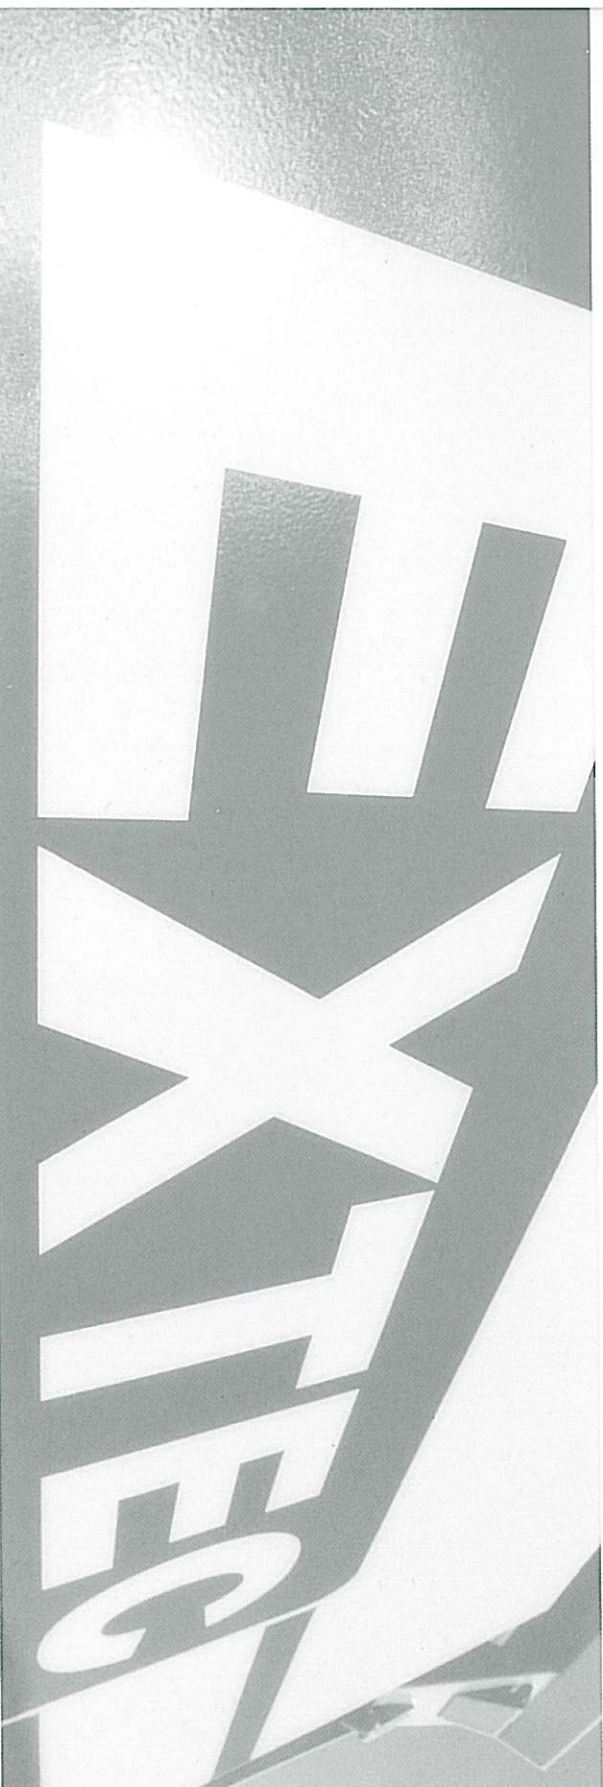

- Oil Cooler
- Bogie
- Spray Bars
- Belt Weigher
- TÜV
- Water Tank
- Diesel Pump
- Short Hopper Doors
- Lined Hopper Doors
- Vogel Greasing
- Steer Bogie
- Magnet
- Side Conveyor
- Choice of Grid Bars
- Heavy Duty Feeder
- Boom and Pecker
- Pre-Screen
- Jaw Deflector Plate
- Jaw Plate Style
- Lighting Kit
- Reversible Side Conveyor
